### **Professional Summary**

Dance Movement Psychotherapist and Clinical Psychologist with skills in leading client centered therapy sessions using movement and clinical diagnostic assessments. Expertise in working with varied populations in physical and psychological rehabilitation. Organized Supervisor at managing multiple roles while maintaining a strong work ethic and designing creative treatment programs. Research based and evidence based program development expert. Core Faculty and Training Program development with St.Xavier's College (Autonomous), Mumbai. Organizing and Designing workshops for NGOs, Corporates, Hospitals and Community Set-ups. I have keen interest in embodied indigenous movement practices and how they can find support in neuroscience. Decolonizing the practice of DMT and actively advocating that mental health is relational, political and cultural is integral to my experience of mental health systems.
